

Kids 4 Kids

Have fun while helping others!
Check out how simple it is to brighten
the day of children stuck in a hospital.

BEDSIDE COPING KITS

Fill a bag with fun games, puzzles, crayons, markers, colored paper, a notebook, and anything else that will make a hospital stay more entertaining!

CARE KITS

Don't forget about hygiene! Overnight stays in the hospital aren't always planned. Keep patients prepared and comfortable by filling bags with soap, toothpaste, and a toothbrush.

CRAFT KITS

Fill a bag with the supplies needed for a project: Beads and string to make a necklace, glitter glue and jewels to decorate a frame... Come up with some of your own ideas and give a patient an activity in a bag!
